American Railroad Journal.

New York, Saturday, June 21, 1879.

State Taxation of Railroads.

At the Convention of State Railroad Commissioners, held at Saratoga on the 11th inst., Mr. Charles Francis Adams, Jr., submitted a preliminary report, from a committee appointed last year for the purpose, upon the general subject of State Taxation of Railroads, with a view to secure the substitution of a more rational and congruous system, instead of the crude methods of obtaining revenues which are now resorted to.

The committee state in their report that shortly after organization they issued a circular, with accompanying interrogatories, which they sent to corporations of the country. The State Departall the State Executives and to the chief railroad ment was also utilized, in order to communicate with the governments of Europe on the subject. "As a result," the report says, "some sixty answers in all were received, covering the various States of the Union, Canada, England, Belgium, Holland, Germany, Russia, Switzerland and Austro-Hungary. An answer is still to be received from France."

The information received is said to be of great value, but the committee confine themselves at the present to the general results of the conclusions arrived at by them. The committee find that there is no general system of taxation resorted to—no general principle running through the tax schemes; and further, that there is no possible method of taxation which is not at this time already applied to railroad property in some part of this country.

The recognized, well established system of equitable taxation are said to be totally ignored in regard to railroad property. "In two adjoining States, for instance, with roads belonging to one company operating in both, will be found on one side of the line a system simple, direct, equitable, imposing a moderate and fixed burden, from which there is no escape, while on the other side of the line the whole subject is still involved in that original crudeness, with guess work for its only basis, which marks all those patch-work systems of taxation which have been improvised since 1835 to meet the growing needs of State and local treasuries, without any regard to principle or study of the subject, on the popular but fallacious theory that any one known enough to impose taxes."

In some States railroads are looked upon as windfalls from which the means of State subsistence may be obtained; in others they escape with very inadequate assessments, entirely disproportionate to their share of profits from the community. They are taxed indiscriminately on their franchises, on their gross and net earnings, on their personal and real property. Sometimes they are taxed upon levies made by local boards, sometimes by boards of State equalization, but almost invariably in utter disregard of any equitable principle. The reports says that it is actually discouraging to have such an example presented to the public of general confusion in the vital matter of fiscal legislation.

The requisites of a correct and equitable system of taxation for railroads are few and simple. The taxes should be fixed, few, easily ascertained and easy to levy. These features are not met in the majority of our tax systems. So far from being fixed, they are in the most cases both arbitrary and fluctuating.

The measure of valuation varies with the State. In one case it may be the market value of the stock of the company; in another, the arbitrary estimates of appraisers; in a third, gross receipts; in other cases again, local assessment. In the great majority of instances, railroads must either evade altogether the taxes laid upon them, or pay what amounts to double taxation, as the securities issued by them are, in the contemplation of law, personal property, assessable at the residence of the owner. "Local taxes paid by the corporation in one State do not affect these securities if held in another, and they are thus subject to an additional levy, the amount of which must depend upon the honesty of the holders of property or the astuteness of local tax gatherers."

The conclusion of the committee is that a sound system of railroad taxation must rest upon taxes on real property and on gross receipts. In no other way, in the judgment of this committee, can railroads be equitably assessed. The realty of the road would thus be subject to local amercement, while the State could levy a fair percentage upon the entire actual earnings of the corporation, in lieu of all other taxes.

The committee state that the system of taxing railroads in Michigan and Wisconsin is fairer and more equitable than in any other States.

Canton Company.

At the annual meeting of the stockholders of the Canton Company of Baltimore, held on the 11th inst. at the office, No. 28½ South street, 25,983 shares of stock were represented. The annual report showed the revenues of the company for the year ended May 31, 1879, were $75,387 61; expenses, including losses, $41,430 55, showing an increase in revenue and decrease in expenses. New leases amounting to $3,150 were made. The company bought over four acres of ground fronting on the river near Colgate's creek from the estate of S. Golibart. The company's property embraces about 2,500 acres. The receipts of the Union railroad for the year were $173,900, an increase of $45,093; expenses, $29,471, a decrease of $471. The net receipts in April were $20,600. It was stated that $15,000 a month net earnings from the railroad would pay the interest on its bonded debt and the interest on the bonded indebtedness of the Canton Company besides. The whole board of directors was re-elected as follows: Wm. Mertens, James B. Colgate, Abm. B. Baylis, Geo. F. Stone, of New York; Geo. S. Brown, Wm. G. Harrison, Wm. H. Graham, Chas. Weber, W. B. Brooks, of Baltimore, Walter

B. Brooks was re-elected president, and Wm. W. Janney secretary.

Western Union Telegraph.

The report of this company for the quarter ending June 30, 1879, is as follows:

EXECUTIVE OFFICE,
WESTERN UNION TELEGRAPH CO.,
NEW YORK, June 11, 1879.

In the report presented by the Executive Committee at the last quarterly meeting of the board, held March 12, 1879, the net profits for the quarter ending March 31st (February being partially and March wholly estimated), were stated at $920,883 49.

The official returns for the quarter (ending March 31st) showed the profits to be $931,324 85, or $10,341 36 more than the estimate.

The following revised statement, based upon complete returns, will show the condition of the company at the close of the quarter ended March 31st, 1879:

Surplus January 1st, 1879, as per last quarterly report		$298,776 41
Net profits, quarter ended March 31st, 1879		931,324 85
		$1,230,101 26
From which deducting—		
Dividend of 1¼ per cent paid April 15, 1879	$525,936 00	
Interest on bonded debt	107,000 00	
Sinking fund appropriations	20,056 81	
Construction account	20,184 98	
Purchase of sundry telegraph stocks, patents, etc	11,901 00	
		685,078 79
There remained a surplus April 1st 1879, of		$545,022 47
The net profits for the quarter ending June 30, instant, based upon official returns for April, nearly complete returns for May, and estimating the business for June (reserving amount sufficient to meet the claims of the Atlantic and Pacific Telegraph Company, under existing agreements) will be about		$1,103,002 98
Add surplus April 1, as above		545,022 47
		$1,648,025 45
From which appropriating—		
Interest on bonded debt	$107,088 68	
Construction, purchase of stock of leased lines and other properties	150,000 00	
Sinking fund appropriations	20,000 00	
		277,088 68
Leaves a balance of		$1,370,936 77
A dividend of 1¾ per cent on the entire capital stock requires		717,500 00
Deducting which, leaves balance after paying dividend		$653,436 77
The present closes the fiscal year, and shows the net earnings for the year to be		$1,238,988 77
From which deducting fixed charges upon net earnings, for interest and sinking fund on bonded debt		508,738 66
There is left available for dividends or investment		$3,730,250 11

—being over nine per cent on the entire capital of the company, including the stock held in the treasury. Or after the further deduction of the sum appropriated for the construction of new lines and purchases of new property (thought to be worth more to the stockholders than if paid to them in dividends) there is still a balance of net earnings, equal to more than eight and a half per cent of the entire capital stock of the company.

In view of the preceding statements, the committee recommend the adoption by the board of the following:

Resolved, That of the stock of this company held in the treasury, there be distributed and transferred to the credit of stockholders of record at the close of business, on the 20th of June instant, an amount equal to seventeen per cent of the stock held by each, for which distributed stock, certificates be issued: Provided that fractions of shares be issued in special certificates bearing no dividends, but convertible into full shares on the transfer and surrender of sufficient fractions.

Resolved, That a dividend of one and three quarters per cent from the net earnings of the quarter ending June 30, 1879, be and is hereby declared payable on the 15th day of July next, to stockholders of record at the close of business on the 20th day of June instant, inclusive of the additional stock which may be transferred and distributed, as provided in the foregoing resolution.

Resolved, That for the purpose of such dividends the stock books of the company be closed at three o'clock on the afternoon of the 20th day of June instant, and be reopened on the morning of the 16th day of July next.

Respectfully submitted,

NORVIN GREEN, President.

Pittsburg, New Castle and Lake Erie R. R.

The special committee appointed by the stockholders to audit the accounts report the following as the assets of the company when the road is completed from Allegheny City to Wurtenburg—46 miles:

Thirty one miles of road completed		$355,153 07
Allegheny extension		40,000 00
Wurtenburg extension		85,970 00
Rolling stock on hand		32,049 22
Rolling stock required		29,550 00
Right of way, Allegheny City to Wurtenburg		7,500 00
		$550,220 29
Eberhardt Ober, et al	$10,000	
Bonds unsold	108,500	
Bank stock, worth	4,000	
Subscription to capital stock, good	3,000	
		125,500
		$675,720 29

LIABILITIES.

Capital stock	$200,000 00
First mortgage bonds	225,000 00
Bills payable	92,355 48
Floating debt	16,802 81
Allegheny extension	40,000 00
Wurtenburg extension	64,512 10
Rolling stock	29,550 00
Right of way	7,500 00
	$675,720 29

The Pittsburgh, New Castle and Lake Erie Railroad Company have undertaken an extension of their road from Zelienople (its present terminus) to Wurtenburg, a distance of thirteen miles; with the view to make accessible the extraordinary deposits of iron ores and fossiliferous limestone, situated in Beaver and Lawrence counties. The new work is progressing favorably, and can be completed within sixty days,

The entire cost of the first division of the road, 30 miles in length, including three tunnels, bridges, trestle work, deep cuts, water tanks, motive power, rolling stock, &c., will not exceed $12,000 per mile.

Also the construction of its track along River avenue in Allegheny City, and the completion of the Pine Creek section of the road, with freight and passenger depots, at an expense of $40,000.

The road runs centrally through the counties of Allegheny, Butler, Beaver and Lawrence. It traverses thickly settled and productive agricultural districts. It passes through five seams of coal, including bituminous, semi bituminous, cannel and block. Inexhaustible deposits of excellent fire clay, ferriferous and fossiliferous limestone, iron ores, Mahoning, Buffalo, Butler, Freeport, and Piedmont sandstones. It crosses the Butler oil and gas belts. The waters of Pine Creek, the Connoquenessing and Slippery Rock, offer extensive water power facilities with the advantage of securing cheaply, large stores of pure spring water ice.

This railway constitutes an important link in the trunk lines of Narrow Gauge railways projected and in the course of construction North and West.

The following is an estimate of the possible earnings of the road when the line is in successful operation from Wurtenburg to its terminus in Allegheny City.

The estimate is based upon the present actual receipts per mile, and the traffic assured the company by existing contracts, and the demand for mineral supplies to be found along the line.

Taking out present traffic (freight and passenger) over 30 miles of road, and figuring the 16 miles of extensions at the same rate per mile, the local traffic (freight and passenger, without any ore, limestone or ice trade), when the road is completed, will more than maintain the road and pay the interest on $225,000 of bonds, leaving all through freights and any increase of local traffic to pay dividends on stocks.

We estimate the gross earnings of the road, immediately after the completion of the east and west ends, to be as follows for the first year thereafter:

135,000 tons ore and limestone, at 50c.		$67,500 00
40,000 tons ice at 50c.		20,000 00
Local and miscellaneous freight (at present rate per day)		21,000 00
Passenger receipts		26,000 00
Mail service 46 miles, at $50—less 10 per cent reduction		1,886 00
Total earnings first year		$136,386 00
Less operating expenses 60 per cent	$81,831 60	
Interest on $225,000 bonds at 7 per cent	15,750 00	
Interest on $50,000 frt. certif, at 7 per cent	3,500 00	
Interest on $200,000 stock at 6 per cent	12,000 00	
		113,081 60
Surplus		$23,304 40

Eastern (N. H.) Railroad.

The annual report of the Eastern Railroad in New Hampshire, which has been delayed on account of the illness and death of the late Treasurer, Thomas J. Lee, is now issued. Since the last annual report the directors have effected a compromise, which has been accepted by the corporation, and the road has been leased to the Eastern Railroad Company for a term of 60 years and 2 months from October 1, 1878, at a rental equal to 4½ per cent per annum upon the capital stock, dating back from June 1, 1877. All litigation has closed, and so far as practicable all bills for legal services have been paid. On January 6, 1879, a cash dividend of 3½ per cent, and a return to the contributors of the 1 per cent paid by them to carry on the suits, with interest, was paid. The funds on hand will pay all liabilities, and it is expected hereafter to make semi-annual dividends of 2¼ per cent. The leases and contracts are all properly recorded, and as the income is known and fixed, no future report seems need-

ed. The annual meeting occurs the first Tuesday in May, and dividends will be paid on or before June 15 and Dec. 15 of each year. The financial statement of the road is as follows:

June 26, 1878:	
By balance on hand	$3,358 84
Eastern Railroad	22,500 00
Dastern Railroad	11,250 00
Contributions from shareholders	9 00
Interest	60 80
Total	$37,178 64
April 30, 1879:	
To dividends paid	$16,618 00
To dividends paid (old)	40 00
Contributions returned	3,874 96
Legal expense	7,856 74
Sundry expenses	504 57
Balance on hand	8,284 37
	$37,178 64

A dividend of 2½ per cent is payable at the Treasurer's (E. A. Abbot's) office, Boston, on and after June 16.

Ogdensburg and Lake Champlain Railroad.

At a recent meeting of the Executive Committee of the Board of Directors the report of the Auditor, fully setting forth the actual financial condition of the company, its business for the year ending April 1, 1879, a comparison of that and the preceding year, and full detailed statements of all the facts necessary to a complete understanding of the affairs of this corporation, was submitted to the Committee, and ordered to be printed and distributed to the stockholders. The gross earnings, expenses, etc., during the years named were as follows:

	1878.	1879.
Gross earnings	$591,117 64	$479,276 78
Operating expenses and taxes	427,314 74	388,869 50
Net earnings	$163,802 90	$90,407 28
Interest on bonded and floating debt	72,317 37	79,731 72
Dividends on preferred stock	160,000 00	

During the year 2000 tons of steel rails have been substituted for iron. The cost of this substitution has been wholly paid from current revenue, and is included in the operating expenses of the year. All other charges and expenses of the year have been charged and paid in full within the year.

The floating debt of the company on the first of April, 1879, was $217,380 80. The road, machinery and property have been in all respects fully maintained at their standard condition, and in some respects improved.

The track will require a further substitution of 1200 tons of steel rail for iron during the present year, and that amount has been purchased upon favorable terms, and will be laid the present season. The same amount will be needed for the following year also.

☞ At a meeting of the directors of the Lehigh and Wilkesbarre Coal Company, held in this city on the 11th inst., all the outstanding accounts between that company and the Central Railroad Company of New Jersey were satisfactorily adjusted and settled. Mr. J. N. A. Griswold, Chairman of the Chicago, Burlington and Quincy Railroad, was elected a director in place of the late Jacob Vanatta. The direction of the Lehigh and Wilkesbarre Coal Company is now composed of Charles Parrish, President; F. S. Lathrop, John Kean, F. A. Potts, G. G. Haven, J. S. Barnes and J. N. A. Griswold.

Model Car House and Stables.

The new stables and car house of the Washington and Georgetown Street Railway Company at Georgetown, Dt. of Col., were used for the first time on the 14th inst. As the various cars "turned in" they were housed in the new car house. All of the stock, the company owning over five hundred horses, were put in the new stables. These stables are said to be the most improved ever built in this country. Erected at a cost of over $300,000, nothing has been left undone to make them complete in every particular. The horse hospital in connection with them, which has accommodations for forty sick horses, surpasses anything in its line ever attempted. A bath tub, in which a horse can be given a cold, warm or steam bath, is to be one of its adjuncts. The feed department is run entirely by steam, all the feed being cut and mixed by the latest improved machinery. The company will soon build a smaller stable at the navy yard end of the line, so that cars can be run earlier in the morning from that end of the road.

☞ The lines of the North Pennsylvania Railroad Company and of the Delaware and Bound Brook Railroad Company, which under lease have passed into the possession of the Reading Railroad Company, will be known as the North Pennsylvania and Bound Brook Division of the Philadelphia and Reading Railroad. That portion of the Division extending from Philadelphia to Bethlehem will be known as the Bethlehem Branch, and that extending from Jenkintown to Bound Brook will be known as the New York Branch. Mr. A. H. Fracker has been appointed Superintendent of the Division, his office being located at Berks and American streets, Philadelphia.

☞ The Pennsylvania Railroad Company propose to construct a branch from a point between Malvern and Glenlock, on their Main line, to West Chester, the citizens of the latter place having accepted a proposition to subscribe to $60,000 of five per cent bonds, which the company will guarantee. At last accounts $33,000 had been subscribed, and it was thought the remainder could be raised with but little difficulty.

☞ The directors of the St. Joseph and Western Railroad Company, elected on the 13th inst., are: Wm. Bond, J. J. Slocum, C. W. Osborn, Jay Gould, Alfred Mitchell, Russell Sage and Sidney Dillon, of New York; F. L. Ames, of Boston; S. H. Clark, of Omaha; A. M. Saxton, of St. Joseph; E. N. Merrill, of Hiawatha, Kansas; Edward Knowles, of Seneca, Kansas; Frank Schmidt, of Marysville, Kansas.

☞ Thomas A. Scott has been elected President of the Connecting (Pa.) Railroad Company. The directors are: Josiah Bacon, Alexander Biddle, J. N. DuBarry, Strickland Kneass, Wistar Morris and George B. Roberts.

☞ The new bonds for funding the recognized debt of North Carolina, have been received by the Treasurer of that State. All the holders of bonds are requested to present them for redemption as soon as possible, the time being limited.

Prosser's Twin Cylinder Cars.

A novel invention called Prosser's Twin Cylinder Cars, to be used for transporting grain, is described at length in the Chicago papers. The cars consist of large cylinders made of boiler iron, about 6½ feet in diameter, to which are securely attached two tiers of steel, made with a flange in the shape of the ordinary car wheel, with this difference—that they are very much larger. These tires are so placed as to fit the ordinary railway track, and really are the wheels of the car. Through the centre of the cylinder passes a hollow steel tube, with perforations which admit air to the grain within, the air afterward finding egress through numerous small apertures in the body of the cylinders. By this means perfect ventilation is maintained, and, at the same time, the corn or wheat is thoroughly dried while in transit, preventing its molding, a not unfrequent occurrence by the ordinary methods of transportation.

☞ The Philadelphia and Reading R. R. Co., having decided to extend their first mortgage loans, maturing July 1, 1880 amounting to about $2,500,000, give notice to holders that they have placed the negotiation of such extension in the hands of Drexel & Co. and Newbold's Son & Co., of Philadelphia, who now offer to the present holders of said loans, upon payment of ten per cent premium, the privilege, until September 1, 1879, of extending the same for thirty years from July 1, 1880, with interest at the rate of 6 per cent per annum, payable semi-annually.

☞ The Richmond (Va.) Dispatch, of June 14th, says that "the funding prospects are bright and brightening. Although the new bonds are not yet ready over $1,000,000 of old bonds have been deposited with the Planters' and First National Banks, of Richmond, for funding. Advices have been received by these banks from London and New York of $2,000,000 more which will be in during next week. The State has made arrangements to pay the July interest on all new bonds that may be issued before that date."

☞ A new railroad to connect Duncannon and New Bloomfield, in Perry county, Penn., is in contemplation. It is calculated that about $130,000 will suffice for building and equipping the road, if it is constructed on the narrow gauge plan, as is proposed. A Pittsburg capitalist, it is said, has offered to furnish $60,000 of the amount required, and take as security for his investment a first mortgage on the road and its equipments.

☞ A meeting was held at New Bloomfield Penn., on the 14th inst. to organize the Duncannon and Bloomfield Railroad Company. William A. Sponsler was elected President, and a Board of Directors chosen, who will push the enterprise through. The proposed road will traverse through rich agricultural and iron ore districts.

☞ The Commissioners of the District of Columbia, in a letter to Lewis Johnson & Co., Washington, dated 12th inst., say that "the $1,200,000 five per cent District bonds, recently authorized by Congress, are not exempt from taxation."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

| | | |

☞ The Pennsylvania Railroad Company are building several hundred box cars, which they propose to run on their fast express freight trains. The axles, journals, etc., are to be sufficiently heavy to make it perfectly safe to run the cars at high speed when carrying 40,000 pounds. While the running gear will be heavier than those of the ordinary cars, the box of the car will be two feet shorter, but they will be lined on the interior two and a half feet higher than the box cars in common use. Two years ago 20,000 pounds was thought to be ample tonnage for a car.

☞ The contract for the grading, masonry, etc., of the coal road from Musselman's Mills to Chillicothe, Ohio, ten miles, has been awarded to L. A. Boyles, of Frankfort, Ross county.

Statement of the Public Debt of the United States, June 1, 1879.

DEBT BEARING INTEREST.

Totals	$64,623,512 00	$1,615,587 80

Interest paid by United States, $41,773,745 22; interest repaid by transportation of mails, &c., $11,177,435 49; balance of interest paid by United States, $30,596,309 73.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, May 31, 1879.

JOHN SHERMAN,
Secretary of the Treasury.

☞ The Pittsburg Chronicle says that the Pennsylvania Railroad Company have purchased the "June Bug" Railroad. This road opens out thousands of acres of the best Connellsville coking coal, branching off from the Mt. Pleasant and Broadford Railroad at Ironbridge Station. The Pennsylvania Railroad, as usual, showed their enterprise and foresight in this purchase. The closest figuring will make the quantity of coke involved in this purchase not less than one million, eight hundred thousand cars of coke dependent upon the "June Bug" for accessibility to market.

☞ On the 13th inst. the Harlan & Hollingsworth Company, of Wilmington, Del., shipped one private and five parlor cars for the New York and Manhattan Beach railroad, making a total of nine shipped to that date.

☞ The directors of the Cincinnati, Rockport and Southwestern Railroad Company have under consideration the extension of the road northward, probably to a connection with the Indianapolis and Vincennes Railroad.

American Railroad Journal.

Saturday, June 21, 1879.

Financial and Commercial Affairs.

Barely a ripple has disturbed the placid flow of financial events during the past week. Money has been plentiful at easy rates, and the confidence that it will remain so for some time is expressed in the fact that large loans of three and four months' duration have been made to strong firms in the Street at 3 per cent on general collaterals.

A large amount of capital will be set free by the disbursement of semi-annual interest payments next month and this, connected with the desire of the Treasury to prevent any stringency until its funding operations terminate in August next, justifies the confidence which ties up floating capital at easy rates for the summer season.

Complaints are made that payment for the called bonds sent into the Treasury for redemption are not made with due promptitude. Three weeks, and in some cases a month, is altogether too long a time for business houses to be deprived of their negotiable resources. There is, moreover, no adequate reason for this delay, as a temporary increase in the working hours of the clerical staff or an addition to their number would prevent it.

Sterling Exchange is quiet, but little commercial paper offering; a large portion of the week's Exchange having been effected by the use of U. S. 4 per cents, a million and a half of which have been remitted to London during the week.

Good commercial bills have sold at extremes of 4.86 to 4.89 for 60 days and demand, respectively, while Bank paper has been 4.87½ to 4.90 for the same denominations.

The course of the Silver market abroad is

watched with much interest, more especially in regard to its bearings on the legislation contemplated by Congress. Recent advices from London confirm the belief that large shipments will have to be made to China and India to provide for the deficiency in the silk crop of Europe, and also that the East India Government will materially curtail the amount of Rupee Bills it periodically sells in the London market. The effect of these sales has hardly been fully understood here, although they have in fact done more to disorganize the silver market all over the world than Germany's sales of her surplus coin, or the expectation of an enormous outflow from our Western mines. Briefly: the Indian Government, to pay its European creditors the $40,000,000 annually it owes them, in place of exporting silver rupees which are its legal tender, sells its rupee paper, payable in India, in the London market. When these sales, which are held fortnightly, are in excess of the amount the mercantile community need to place in Bengal or Bombay, the price of the bills is depreciated and with them the price of the silver they represent, to an abnormal degree. As the necessities of the Indian Government for some years have compelled it to sell its paper at any price it could get, the silver market all over the world has suffered correspondingly. Were these sales suspended for twelve months, silver would probably return to 60 pence per ounce and the Warner Bill would be laid aside as useless or be passed without opposition, as harmless.

Government bonds have experienced little change since our last report. The movement, such as it has been, has tended downwards, due possibly to a portion of the $15,000,000 of converted certificates having come back into the market. This weakness has facilitated exchange operations, the prices in London admitting of shipments to a limited extent.

State Securities have experienced no material fluctuation. The outcry against the Louisiana repudiation convention has had the effect of weakening the advocates of scaling the State debt, and hopes are now entertained that the disgrace of seriously entertaining such a proposition will be the worst that will happen to these false friends of Louisiana's best interests. From $24,000,000 the debt had been decreased by repudiation to $12,000,000 and the present convention propose to reduce this to $4,000,000 of principal with a 4 per cent interest.

In Stocks Western Union Telegraph has relapsed two or three per cent below its best point. The recent division of the Stock Reserve is considered a questionable policy and the activity of the rival company renders the wisdom of the act yet more dubious. The knowledge that henceforth extra expenses must necessarily come out of dividends will undoubtedly create a large short interest until par is again touched.

N. Y. Elevated Railroad Stock has been dealt in small lots as low as 172 and ex privilege of Manhattan Stock, at 132 thus making a price of 40 for the latter. As the Elevated Stock is now a guaranteed 10 per cent security it is highly improbable that with the present rates for money, it will long remain under 200. The new 4th Avenue Vanderbilt Route indicated by the Rapid Transit commissioners, has excited some apprehension in the Manhattan management which may be justified in the result, if Mr. Vanderbilt thinks it worth his while to extend his line to the City Hall.

The coal lines are strong upon an increased amount of tonnage, 37 per cent in excess of last year's quantities. The actual figures are 11,199,231 tons this year to date against 6,807,260 tons for 1878.

Philadelphia reports a quiet but firm market in all her favorite stocks with an upward tendency in the coal lines and money commanding higher rates than it will fetch in Wall Street. The relief of the Banks of the City by the Assistant U. S. Treasurer, of the large masses of subsidiary silver that have long been encumbering their vaults has been the gratifying event of the week. Many tons weight of this surplus coin have already been sent into the Treasury and many weeks will be required to count the coin and separate the mutilated from the sound, for the latter of which alone the Banks will be credited at coin value. One Bank has sent in $100,000 worth weighing 3 tons. Amounts of $20 and its multiple are received by the Treasury which will return silver dollars, legal tenders or gold therefor, at the owners option. As complaints of the scarcity of Greenbacks in the Philadelphia market have been frequent of late, the Banks now have the opportunity of supplying their customers without interfering with their gold reserve.

In Baltimore we find a strong market for its specialties, Baltimore and Ohio stock selling up to 109½ with a good demand at fractional advances for the Bonds of the Company. Bonds of the Marietta and Cincinnati and the Orange, Alexandria and Manassas Railroads have both experienced a small decline without assigned reason. The rest of the list shows little variation. Virginia consols have declined one point. Peelers at 41 with no bids, the last sale to date being 39½. The advance of the season is beginning to deplete the market of its best supporters but present ease in money affairs and the prospect of a still better supply after the 1st prox. supply all the confidence needed to make a strong market.

The Boston National Bank return for the past week shows no change of moment. The loan account has increased somewhat over half a million and deposits have increased about $400,000.

In the produce and general merchandise markets Cotton has lost much of its buoyancy, the decline reaching one cent during the last 14 days. Two or three failures, one involving a Boston firm, has resulted from and has partially assisted in causing these fluctuations. The bottom cause however is that it is now believed the Negro exodus will have but a small effect on the cotton crop, and the demand for foreign mills shows no prospect of a large increase.

The exports of provisions for the month of May were considerably less than those for the same month last year, the difference being rather of values than of quotations. This tallies with English statistics which indicate the import of reduced values but increased quantities. Breadstuffs remain steady, the depreciating tendency of an excellent harvest in prospect being offset by the likelihood of larger requirements for Europe.

Railway freightage to the interior has increased ten per cent during last month. This renewed activity gives additional point to the Legislative inquiry into the freight management of our railroads, now going on at Albany. This inquiry has revealed a system of favoritism in special rates, benefiting certain merchants to the detriment of others, which it is hoped will be severely checked. A railway tariff schedule should always be worth its face value, neither more nor less, since a merchant's calculations of profit or loss, in close prices, are often based solely on its honest maintenance.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Marietta and Cincinnati 1st mort., 88½; Cairo and Fulton 1st, 101⅝; South Pacific 1st, 100; Kansas Pacific Land Grant, 1880, with coupon certif., 117; do. 7s, Denver div., trust rec. ass., 100½; St. Louis and Iron Mt. ass., 24; do. 1st inc., 69; Buffalo, New York and Erie 1st, 1916, 115½; Missouri, Kansas and Texas R. R., 12¾; do. 7s, consol. ass., 67¾; do. 2d, 27⅛; Toledo and Wabash Equip., 35; Lehigh and Wilkesbarre consol. ass., 66⅛; do. inc., 50; New Jersey Southern R. R., 2⅜; do. 1st, 40; Chesapeake and Ohio R. R., 5¼; do. 1st pref, 9½; do. 1st, Series B, 40⅜; do. cur. int., 18; do. Boston and New York Air Line pref., 42; St. Louis and San Francisco 2d, A, 73; Rome, Watertown and Ogdensburg 7s, consol., 54; Central of New Jersey 1st consol. ass., 94¾; do. inc., 68; do Adjm't 102⅜; do. conv. ass., 49½; Winona and St. Peter 2d, 105; Chicago, St. Paul and Minn. R. R., 32; do. 1st, 102; do. inc., 85; St. Louis, Kansas City and Northern R. E. 7s, 1895, 101½; Ind., Cin., and Laf. R. R., 3; Cedar Falls and Minn. 1st, 104; Col., Chl. and Ind. Cent. 1st, trust certif., 68; Cincinnati and Spring. 1st, guar. by Lake Shore, 104; do. by Clev., Col., Cin. and Ind. 95⅛; Chicago, St. Louis and New Orleans 2d consol., 45; Nashville, Chattanooga and St. Louis R. R., 42¼; do. 1st, 105; St. Louis, Kansas City and Northern Omaha div., 105¼; Keokuk and Des Moines R. R., 10¼; do. 1st, 94; Clev., Col., Cin. and Ind. consol., 99¼; Louisville and Nashville R. R., 53; do. 2d, 102½; Frankfort and Kokomo R. R. 25⅞; do. 1st, 93½; Louisiana and Missouri River 1st, 109; Galena and Chicago 1st, 106½; Denver and Rio Grande 1st, 91½; East Tenn., Va. and Ga. 1s, 102½; Albany and Susq. 7s, consol., 102; Am. Dock, and Imp, bonds, 80; Maryland Coal, 13¾; Pennsylvania Coal, 145; Sutro Tunnel, 4½; Standard Mining, 29¼; Homestake, 37; Ontario, 39; Canton Co., 40; Louisiana 7s, consol., 45½; North Carolina 6s, old, J. & J., 25¼; do. A. & O., 25⅜; do. Fund Act 1868, 8¾; do. special tax 3d class, 3; South Carolina 6s, non fund., 2⅝; Tennessee 6s, new, 31; Alabama, Class A, 47; Missouri 6s, 1886, 107⅜; do. Asylum bonds, 110; Arkansas 7s, R. R., 6; Virginia 6s, def., 8; Quebec 5s, 1908, 101¼; Brooklyn 6s, P. L., 115. The latest quotations are: Adams Express, 105¾@106¼; American Express 463¼@473¼; Atlantic and Pacific Telegraph, 86¼@86¾; Central Railroad of New Jersey, 52⅜@52½; Chicago, Burlington and Quincy, 115⅜@115½; Chicago and Alton, 82½@84; do. pref., 111@115; Chicago and Northwestern, 65⅜@65½; do pref., 95⅝@95¾; Chicago, Milwaukee and St. Paul 58⅛@58¼; do. pref., 92¼@92⅜; Chicago,

Rock Island and Pacific, 138⅝@139; Cleveland, Columbus, Cincinnati and Indianapolis, 49@49⅜; Cleveland and Pittsburg, 96⅛@96¾; Delaware and Hudson Canal, 46⅛@46¾; Delaware, Lackawana and Western, 57⅝@57⅞; Erie, 27¼@27½; do. pref., 51¼@—; Hannibal and St. Joseph, 20⅜@20⅝; do. pref., 42⅛@42⅜; Illinois Central, 86½@87; Kansas Pacific, 55@—; Lake Shore and Michigan Southern, 74⅜@75½; Michigan Central, 75⅝@75¾; Morris and Essex, 87¾@88¼; N. New York, New England and Western Investment Company.

The New York, New England and Western Investment Company have, as we learn, recently made some remarkably favorable purchases of high class Western securities carrying good interest on the most unexceptionable basis. The larger part of their purchases have been taken up by their private customers, and the balance is already engaged to the guardians of some trust funds who are glad to realize somewhat more than the present low rates that the best securities command in the open market. During the temporary absence in Chicago of Mr. John C. Short, the energetic President, the management of the company's affairs here are ably conducted by Mr. Geo. W. Debevoise, who has recently been elected Vice President.

North Carolina Compromise Bonds.

Holders of North Carolina Bonds who are not acquainted with the recent legislation of that State providing for a consolidation of the various issues in a single compromise bond, can obtain all the information they desire from Mr. John B. Manning, of No. 6 Wall street. Mr. Manning undertakes to exchange the old Bonds for the new issue, and thus save holders the uncertainty and risk attendant on forwarding the Bonds to the State Treasury and waiting an indefinite time for the fresh securities.

☞ A mortgage for $5,000,000 on the property of the Jersey City and Albany Railroad company has been given to the Union Trust Company of this city, who are to act as trustees, and to issue bonds therefor in sums of $1,000, due in 1908, payable in gold, and drawing seven per cent interest, the proceeds of which are to be used in constructing, completing, equipping and repairing the entire length of road.

☞ The Michigan State Treasurer has failed in his recent effort to purchase and retire the 6 per cent bonds coming due in 1883. The banking house of Hope & Co., of Amsterdam, held $400,000 of these securities, and refused to exchange them on even terms for United States 4½s, running till 1891, or to surrender them for less than 10 per cent premium, with accrued interest.

☞ The foreign exports from Philadelphia during May amounted to $4,726,542 compared with $4,855,577 during May of last year.

Madeira and Mamore Railroad.

Three weeks ago yesterday the cable brought the information from London that the Court of Appeal of the Highest Court of Judicature had reversed the decision of Mr. Justice Fry, sitting in the lower Court, in the case of Wilson vs. Church. Under the decision reversed the Messrs. Collins Brothers were declared entitled to a sum of £800,000, now lying in the hands of trustees in that city, with which to proceed with the construction of the Madeira and Mamore Railroad.

London papers, since received, give the full text of Lord Chief Justice James' decision, a large portion of which was occupied in tracing the origin and movements of the National Bolivian Navigation Company and the Madeira and Mamore Railroad Company. It was from the latter organization that the Messrs. Collins secured the contract for the construction of the road. On this point the Lord Chief Justice remarked:

"Two other contracts were entered into for making this line, which came to nothing, when the existing contract was entered into with the Messrs. Collins, in October, 1877. One of the things to be done under the Collins contract 'was to make such surveys of the ground as should enable the company's engineer to determine the definite course of the railroad,' so that up to October, 1877, even that had not been ascertained. The contract was, in effect, to do the work of the railroad so long as the contractors should receive payment out of the trust fund, or out of debentures, to be provided under a guarantee of the Brazilian Government. It is a not unimportant fact that the Messrs. Collins paid a considerable sum ($50,000) by taking shares of the railroad company. Moreover, the contract gave the contractors a lien on the railway until they should be paid what was due to them. This was in direct violation of the rights of the bondholders, who were to have a direct charge on the road prior to everything else; in fact, they were to have a direct charge on the net profits. This contract, bought as it were with a bribe, was beyond all question not one under which the trustees for the bondholders would have been justified in making payments. It would have been a breach of trust to have done so. But so long as it existed it was utterly impossible that any other valid contract could be entered into. So that in May, 1879, nothing has really been done to construct the railroad; and nothing can be done until some new contract can be made, and then it might take years.

"In the present suit the bondholders, with the assistance of the Bolivian Government, say: 'There must be some limit of time—the railroad cannot be made; give us back our money.' The Bolivian Government are willing to go back, and the majority of the bondholders desire it."

The Chief Justice then proceeded to brand the Bolivian Navigation Company and the Madeira and Mamore Railroad Company as mere shams and fictions, and declared that "the atmosphere of the temple of Justice was polluted by the presence of such things in it." Continuing he said:

"The plaintiffs' case is that the sum in dispute was appropriated for the purpose of building a railroad; that it was appropriated for a purpose which has become abortive and which cannot now be carried into effect according to the true intent and meaning of their bargain. 'If it cannot be so employed,' they say, 'it must not be applied in making a railway which would simply end in an interminable forest and be of no utility to any one.' They say that the thing has become in a business sense impracticable. I come to the conclusion, on the evidence, that this is so, and that there are no funds beyond the trust fund applicable for this purpose, and that this is insufficient. The whole thing is therefore at an end. The railway cannot be made, for there is no money to make it, and to allow the trust money now to be paid out would be absolute waste. Moreover, the railroad was only part of the whole scheme for which the bondholders subscribed their money, and the navigation scheme has become impossible by revocation of concessions by the Bolivian Government. The decree of Justice Fry is therefore reversed, and a decree now made for the return of the money (£800,000) and its division among the bondholders according to their interests; defendants to pay the costs."

Chief Justices Brett and Cotton concurred in the decision, the former, however, declaring that he did not coincide in the attack on the two companies referred to by his learned brother.

In the course of the case Mr. Thomas Collins testified that the construction of the road was practicable, and urged that he had already sent three cargoes of plant and 1,000 workmen to the grounds. It was also in evidence that the Philadelphia and Reading Coal and Iron Company had advanced the contractors £40,000 ($200,000), and had supplied all the rails already used. Under the decision this money cannot be recovered from the bondholders. The case will now go to the House of Lords, which is the final Court of Appeal.

Assay and Actual Values.

In the absence of specific statements of facts it is difficult if not impossible to arrive at the exact average value per ton of the output of the Leadville mines. Nearly all the bullion produced belongs to the various Smelting Establishments at Leadville which buy the ore on the basis of the assay value given by each parcel offered, and all that it realizes after smelting belongs to the Smelting Works. Hence the product of one of these smelting works for a given time represents the average value of the ore of all the mines from which it has bought.

A recent number of the Denver News throws some valuable light on this subject. Speaking of the Malta Smelting Works at Leadville, it gives the run of one furnace from January 1 to May 15 of this year at the following figures.

No. of pounds of ore treated.....	11,020,000
No. of pounds of bullion therefrom....	1,250,000
Value of bullion.....	$254,090

Turning pounds of ore into tons and dividing by the value of the silver, we find that it takes one ton to produce $46; and as the ore was doubtless well sorted before being sold we are forced to arrive at a less favorable conclusion of the average value of Leadville mines than the reports from assays of picked specimens gave reason to expect. A mine of $46 ore is very valuable and above the Comstock average, but it is not $200 and $300 dollar ore which is popularly supposed to represent Leadville mine values.

Fractional Silver Coins.

The following is a copy of the bill signed by the President providing for the exchange of subsidiary coin for legal tenders:

Be it enacted, &c., That the holder of any of the silver coin of the United States of smaller denomination than $1 may, on presentation of the same in sums of $20, or any multiple thereof, at the office of the Treasurer or any Assistant Treasurer of the United States, receive therefor lawful money of the United States.

Sec. 2. The Treasurer or any Assistant Treasurer of the United States who may receive any coins under the provisions of this act shall exchange the same in sums of $20, or any multiple thereof, for lawful money of the United States on demand of any holder thereof.

Sec. 3. The present silver coin of the United States of smaller denominations than $1 shall hereafter be a legal tender in all sums not exceeding $10 in full payment of all dues, public and private.

Sec. 4. That all laws or parts of laws in conflict with this act be, and the same are, hereby repealed.

The circular of the Treasury Department, regulating the redemption of subsidiary silver coin under this act of Congress, states that the fractional silver coins for exchange should be put up by denominations, and each package marked with the amount it contains. Exchanges will be made only in total sums of $20, or any multiple thereof, and no coins mutilated so as to be unfit for circulation will be received, and the Department will pay no transportation charges. Dues to Government of less than $10 may hereafter be paid in fractional silver coins.

☞ In a circular to the shareholders, Mr. John M. Douglas, of London, the Chairman of the Committee, says that all matters in dispute with receiver of the Atlantic and Great Western have been arranged, that litigation against the Atlantic and Great Western Company is going on, and that the general business of the Rolling Stock Company is proceeding favorably; that it has over 36 lessees of its stock.

☞ H. A. Risley has been appointed receiver of the Denver and Rio Grande railway, on an application of holders of unpaid coupon certificates. Mr. Risley has been the solicitor of the company, but is entirely satisfactory to the trustees of the mortgage which secured the certificates. The receiver gave a bond of $250,000, and at once took possession and issued his orders continuing all the officers and employes in their positions.

☞ The earnings of the Great Western Railway of Canada for the month of April, 1879, were $295,100, the expenses $253,500, and the net earnings $41,600; for the month of April, 1878 the earnings were $305,900, the expenses $268,300 and the net earnings $37,600—showing a decrease in earnings of $10,800, a decrease in expenses of $14,800, and an increase in net earnings of $4,000.

☞ Extra passenger trains are to be put on the Catawissa branch of the Philadelphia and Reading Railroad. Nine extra freight trains will also be put on for the transportation of oil to the seaboard.

Trade and Commerce of Milwaukee.

From the report of the Trade and Commerce of Milwaukee for the year ending December 31, 1878, compiled by Mr. Wm. J. Langson, Secretary Chamber of Commerce, we learn that the receipts of wheat at Milwaukee during the year 1878 were 21,763,312 bushels, and of all kinds of grain 28,937,548 bushels. The receipts of flour were 2,288,303 barrels. For the crop year ending August 24, 1878, the total receipts of grain were 34,533,488 bushels, and including flour were equivalent to forty-five million bushels. The sales of wheat on the floor of the Chamber of Commerce for the year aggregate 392,085,000 bushels, or a daily average of 1 275,000 bushels. The local manufacture of flour was 555,049 barrels. Referring to the progress made in the extension of the railway system of the Northwest, tributary to Milwaukee, the Secretary says:

"It is apparent that the position of Milwaukee as a trade centre is steadily improving by the development of her railway system, and as an entrepot for the distribution of merchandise and the products of her manufactures throughout the Northwest her facilities are unsurpassed, and as a market for the principal agricultural products of the same region they are unrivalled."

Commerce of New York.

The foreign imports at New York for the month of May, 1879, are officially stated as follows:

	1878.	1879.
Entered for consumpt'n.	$9,788,229	$10,902,264
Do. for warehousing....	7,208 218	6,185,158
Free goods	5,803,134	6,752,501
Specie and bullion....	1,371,147	849,026
Total entered at port...	$24.165,728	$24,688,944
Withdrawn fr. wareh'use	5,117,121	4,963,111

The foreign imports at New York for five months from January 1, were:

	1878.	1879.
Entered for consumpt'n	$56,291,166	$61,923,984
Do. for warehousing ..	29,121,860	30,392,794
Free goods	33,526,566	37,752,866
Specie and bullion	11,895,940	4,419,000
Total entered at port..	$130,835,532	$134,488,644
Withdrawn fr. wareh'se	28,264,412	25,877,489

The foreign imports at New York for eleven months of the fiscal year, were:

	1878.	1879.
Six months ending January 1.	$152 045,807	$148,784,274
January	24,626,689	25,657,546
February	25,726,714	26,968,987
March.....	26,565,641	28,238,007
April	29,750,760	28,935.160
May	24,165,728	24,688,944
Total eleven months.	$282,881 339	$283,272.918
Deduct specie.....	19,541,180	10,524,268
Total merchandise.	$263.340,159	$272,748,650

The duties received at New York for eleven months ending with May, were:

	1878.	1879.
July	$7,132,747 46	$8,103,513 74
August	10 018,122 33	10,149,191 69
September	9,068 929 44	9 080,936 88
October	8,392,221 85	8,349,904 94
November	6,585,108 84	6,718,389 94
December	5,815,558 74	6,175,359 43
January	7,154,924 85	7,655,552 67
February	7,914,963 48	8 229,862 06
March.....	8,571,501 20	9,330,695 68
April.....	7,696,243 39	8,184,797 88
May	6,527,083 58	7,577,733 93
Total.....	$84,877,396 16	$89,550,385 84

The exports from New York to foreign ports in the month of May, were:

	1878.	1879.
Domestic produce.....	$27,611,988	$26,123,074
Foreign free goods.....	259,517	195,499
Do. dutiable	492,441	508,681
Specie and bullion.....	821,105	1,942,420

May	28,363,941	26,827,254
Total produce.....	$309,144,724	$309,773,860
Add specie.....	14,463,876	12,717,142
Total exports.....	$323,608,600	$322,491,002

North Pennsylvania Railroad Lease.

A meeting of the stockholders of the North Pennsylvania Railroad Company was held in Philadelphia on the 14th inst. for the purpose of taking action on the lease, made on the 14th of May last, for 990 years, of the railroad, its branches, laterals, appurtenances and property of every description (excepting the railroad supplies stored at the date of lease for use or consumption) of the North Pennsylvania Railroad Company to the Philadelphia and Reading Railroad Company. The terms of the lease, which was read by the Solicitor of the company, are in substance as follows: in the first and second years of the lease the lessee shall pay to the lessor $673,344 annually, in quarterly payments, on the first days of August, November, February and May; during the third and fourth years, the sum of $718,615 50, in similar payments, and during the fifth and sixth years and each succeeding year the sum of $763,887, payable as the other sums in quarterly payments on the first days of August, November, February and May. These sums are thought sufficient to pay interest at the rate of six per cent on outstanding bonds of the lessor amounting to $1,930,500; interest at the rate of seven per cent on outstanding bonds amounting to $1,500,000; interest at the rate of seven per cent on outstanding bonds amounting to $2,559,500; interest at the rate of six per cent on $17,000 of income bonds; all of which bonds are secured by mortgages bearing different dates. The lessee shall pay the lessor a dividend at the rate of six per cent for the first two years, seven per cent during the third and fourth years, eight per cent during the fifth and sixth and succeeding years, on the capital stock and scrip of the company, amounting to $4,527,150. The lease also provides that the lessee shall pay to the lessor during the term of the lease quarterly interest on the floating debt, which amounts to $1,146,690 02, and also the sum of $12,000 annually for the maintenance of the organization of the lessor.

Should the lessee make default in the payment of the rent, or in any of the payments covenanted to be made for a period of sixty days after the same shall have become due and demanded in writing by the lessor, then it may be lawful for the lessor to declare the lease forfeited.

The lease is signed by E. C. Knight, President pro tem., on behalf of the North Pennsylvania Railroad Company, and by Franklin B. Gowen, President of the Philadelphia and Reading Railroad Company, each signature being written over the seal of the respective companies.

President Comly, of the North Pennsylvania Railroad Company, offered and Mr. E. C. Knight seconded the following resolution, which was unanimously adopted:

Resolved, That the lease just read, made by the North Pennsylvania Railroad Company to the Philadelphia and Reading Railroad Company, dated May 14th, 1879, for the term of nine hundred and ninety years from the first day of May, 1879, be and the same is hereby approved, ratified and confirmed.

On motion of Mr. Harry Ingersoll, it was unanimously

Resolved, That the stockholders of the North Pennsylvania Railroad Company desire to place on record an acknowledgement of their appreciation of the unquestioned integrity and fairness, both to the public and individuals, which have characterized the management of the road.

Northern Pacific Railroad.

The St. Paul (Minn.) Pioneer Press, of the 8th instant, says:

Mr. Frederick Billings, President of the Northern Pacific Railroad, accompanied by Mr. Robert Lenox Belknap, of New York, and Mr. E. H. Sawyer, of East Hampton, Mass., both recent purchasers of large interests in the road; Mr. E. H. Sargent, General Manager of the road, and Mr. James B. Williams, the President's private secretary, returned to St. Paul yesterday from a trip to the western end of the Dakota division, and from a lateral tour to Manitoba. They found the iron laid down for a distance of ten miles west of the Missouri, and the grading completed eighteen miles. As soon as a heavy piece of excavation, which is being made to avoid several crossings on Heart river, is completed, track laying will proceed at the rate of a mile a day. President Billings was especially pleased and astonished at the excellent condition of the road and of its rapidly increasing traffic, the business of the road for May showing the earnings to have been $194,000, that amount being over $50,000 more than was ever received during any previous month in its history.

☞ The Profile and Franconia Notch Railroad, which was completed to within two miles of the Profile House on the 14th inst., will probably be finished to that point by the 24th. The second engine, the Echo, a duplicate of the Profile, both constructed at the Hinckley Locomotive Works, had arrived and been set up. It is proposed to run eight trains a day during the summer.

☞ The money to pay the interest on the bonded debt of Alabama due July 1st, has been forwarded to the National Bank of the State of New York. The interest due to parties living in Alabama will be paid at Montgomery and in Mobile, and the money is now in the Bank of Mobile and the State Treasury for that purpose.

☞ Seven hundred men are at work on the Louisiana Western railroad, between Orange, Texas, and Lake Charles.

TO CONTRACTORS.

200 MILES RAILROAD TO BE CONSTRUCTED.

Bids are invited to build and equip twenty (20) miles of the Tampa, Peace Creek and St. Johns River Railroad, work to commence at Tampa, Fla. Approximate estimated cost, $3,500 per mile. Contractor to receive payment in the lands of the company for the first 20 miles, after which, if satisfaction is given to the company, the contractor will receive CASH for the balance of the road.

Full particulars address, or call on R. L. FABIAN, No. 54 William-st., New York City, or ARMSTRONG, VAN FLEET & CO., Room No. 20 Marine Bank Building, Chicago, Ill.

Office of L. P. BAYNE & CO.,
54 Broad Street,
Rooms 8 and 9, NEW YORK.

June 10, 1879.

By authority given us by the GREEN MOUNTAIN GOLD MINING COMPANY, OF CALIFORNIA, incorporated under the General Laws of the State of New York, we now offer to the public Twenty Thousand (20,000) shares (par value $10) of the Stock at $2 00 per share, payable on delivery of the stock.

Books of subscription to said amount will be opened on the 12th inst., at the Office of the Company, 54 Broad St., N. Y., Room 10, and at the office of Wilcox & Baird, No. 64 Broadway, and will be closed in ten days thereafter, at 3 P. M.

If any excess of subscription is made, the 20,000 shares will be apportioned pro rata amongst the subscribers.

The Coal Trade.

The total tonnage of anthracite coal from all the regions for the week ending June 7, as reported by the several carrying companies, amounted to 497,168 tons, against 460,608 in tons corresponding week last year, an increase of 36,560 tons. The total amount of anthracite mined for the year is 9,824,968 tons, against 5,611,027 for the same period last year, an increase of 4,218,941 tons. The quantity of bituminous coal sent to market for the week amounted to 76,968 tons, against 75,965 tons in corresponding week last year, an increase of 998 tons. The total amount of bituminous mined for the year is 1,374,263 tons, against 1,196,238 tons for corresponding period last year, an increase of 178,030 tons. The total tonnage of all kinds of coal for the week is 574,131 tons, against 536,578 tons in corresponding week last year, an increase of 37,558 tons, and the total tonnage for the coal year is 11,199,231 tons, against 6,807,260 tons to same date last year, an increase of 4,391,171 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the first week of June was 119,276 tons, of which 78,375 tons were coal, and 40,901 tons coke. The total tonnage for the year thus far has been 2,426,072 tons, of which 1,861,247 tons were coal and 564,825 tons coke. These figures embrace all the coal and coke carried over the road east and west. The shipments of bituminous coal from the mines of the Cumberland coal region for the week ending June 7th were 35,714 tons, and for the year to that date 594,127 tons, an increase of 54,186 tons as compared with the corresponding period of 1878. The shipments to the Baltimore and Ohio Railroad for the week were 17,910 tons, for the year 369,962 tons, an increase of 14,505 tons, as compared with 1878. The shipments to the Pennsylvania Railroad were, for the week, 3,820 tons, for the year 69,769 tons, an increase of 32,884 tons as compared with last year. The shipments by the Chesapeake and Ohio Canal for the week were 13,923 tons, and for the season 155,395 tons, an increase of 6,796 tons as compared with last year. The Reading Railroad Company reports a coal shipment for the week ending on Saturday evening last of 175,500 tons, of which 60,400 tons were sent to Port Richmond, and 75,000 tons were shipped thence. The receipts at Perth Amboy for the week ending June 14 were 36,705 tons, and the shipments 45,500 tons, leaving a stock on hand of 122,158 tons.—*Phila. Ledger, June* 16.

☞ Judge Dykman, of the Supreme Court, in Special Term, at White Plains, has decided adversely to the application of the New York and Brighton Beach Railroad Company for the appointment of Commissioners to condemn lands for a roadbed and depot sites under the Railroad act. Judge Dykman's decision has been filed in Kings County. In the opinion rendered his Honor says the petitioners have not complied with the exactness of the statute—making maps and profiles, &c.—and that they must begin *de novo* to obtain the completeness of detail necessary under the law before they will be entitled to Commissioners of Appraisal. The denial is made, with $10 costs.

☞ The Williamsport (Penn.) Gazette says that the extension of the Philadelphia and Reading Railroad west to the lakes from Williamsport is only a matter of time. It suggests the small link between Williamsport and Port Allegheny, which will make the Reading line a through one, and give an immense traffic by opening up a boundless coal market.

☞ A. P. Gatch has been elected President and J. G. Clemens Vice President of the Miami Valley and Columbus Railway Company.

☞ The Treasurer of Hartford, Conn., will receive proposals until June 25th for the whole or any part of $750,000 4½ per cent bonds, redeemable at the option of the Treasurer any time after June 30, 1889, and payable in twenty-five years from July 1, 1879. These bonds are exempt from taxation until January 1, 1890.

☞ A Winnipeg, Manitoba, dispatch says the first sod on section B of the Canada Pacific Railway has been turned. One hundred men are now at work.

☞ The work of laying the track of the Cumberland and Pennsylvania Railroad is progressing well, and it is expected that the road will be completed into Cumberland by the close of the present week.

☞ The Lobdell Car Wheel Company, of Wilmington, Del., is crowded to its utmost capacity with orders from Europe for improved paper-making machinery.

☞ The grading and bridging of fifteen miles of the Dayton and Southeastern Railroad, east of Chillicothe, Ohio, is advertised for contract.

☞ Contracts have been let for the extension of the Lake Erie and Louisville Railroad from Celina, Ohio, to Muncie, Indiana.

TO MINE OWNERS.

The New York Stock Exchange has at last opened its doors to the mining interest of our country, and now allows its members to deal in mining shares. Parties who have first class mining properties, and wish to organize companies, under the laws of the State of New York, which are liberal, and find a market, would do well to communicate with

WILLIAM EUCLID YOUNG,

(Member N. Y. Stock Exchange, also N. Y. Mining Stock Exchange.)

Office 60 Broadway, N. Y.

A. G. DAY,

MANUFACTURER OF

Kerite Insulated Telegraph Wire and Cables.

FACTORY, SEYMOUR, CONN.

THE DI-ELECTRICAL PROPERTIES OF KERITE have been thoroughly tested, and its superiority over all other kinds of Insulation fully demonstrated.

ITS DURABILITY

has been demonstrated beyond question in practical use of hundreds of miles of Kerite-covered wires by the Fire Alarm and Telegraph Companies. In New York it has been largely used for the last *ten years*, under all conditions and exposures; the resistance now is as great as when first exposed.

FACTS FULLY ESTABLISHED.

Kerite is not affected by extremes of heat and cold, or by exposure to the heat or sun; endures long continued heat below 200° Fahrenheit, may be safely immersed in boiling water, is unchanged by being placed in the ground; corrosive elements in the earth do not act upon it; acids act very slowly, only to oxidise the surface; bears exposure to not strong solution of alkalies; does not suffer by injury by destructive insects of land or water, and can be stored in tropical climes without change of insulation.

PROF. MOSES G. FARMER, says: "I have used your Kerite as leading wire, more or less for four or five years. It stands abuse, changes of temperature, alternate wetting and drying better than any insulator I have tried."

EMINENT ELECTRICIANS AND PRACTICAL TELEGRAPHISTS

commend and recognize the Kerite insulation as superior to all others.

GEORGE B. PRESCOTT, Esq., Electrician of the Western Union Telegraph Company, under date of September 25, 1874. says: "In September, 1869, we placed some of your Kerite wire, unprotected by any covering whatever, in the tunnel under the river in Chicago, and have since continued its use in that exposed situation with the most gratifying results. A portion of the tunnel is very wet, and water saturated with lime constantly drips upon the wires, while in other portions they are kept alternately wet and dry, which is well known to be one of the severest tests that any insulating material of an organic nature can be subjected to; and yet after five years' exposure under the above conditions, the Kerite covering shows no signs of decay or deterioration. An insulating covering of India-rubber or gutta-percha under a like exposure, would have been destroyed in much less time."

February 1, 1877, he writes further: "This piece of Kerite wire unprotected by any covering, was in use in the tunnel under the river in Chicago, from September, 1869, until December, 1876, and shows no signs of decay or deterioration in its insulating qualities."

For Sale by all dealers in Telegraphic Materials.
